Risk Disclosure

Investment involves risks

The prices of investment products fluctuate, sometimes dramatically, and may become valueless. Investors should not invest based on this promotion material alone. Before making any investment decision, customers should consult their own independent professional financial, tax or legal advisors and read the relevant offering documents for further details including the risk factors in order to ensure that they fully understand the risks associated with the investment products.

Mutual Fund Investment

The past performance of a mutual fund is not a guide to its future performance and yields are not guaranteed. Customers could lose some or all of the principal amount invested. Funds are not obligations of, or guaranteed by, the Bank or any of its affiliates. The Bank will normally be paid a commission or rebate by the fund manager.

Currency Exchange

Currency exchange involves bid-ask spread.

Foreign Exchange Risk

Currency exchange rates are affected by a wide range of factors, including national and international financial and economic conditions and political and natural events. The effect of normal market force may at times be countered by intervention by central banks and other bodies. At times, exchange rates, and price linked to such rates, may rise or fall rapidly. The fluctuations in the exchange rate of a foreign currency may result in losses in the event that you convert HKD to any foreign currency or vice versa.

RMB Currency Risk

RMB is currently not freely convertible and is subject to exchange controls and restrictions (which are subject to changes from time to time without notice). You should consider and understand the possible impact on your liquidity of RMB funds in advance. The fluctuation in the exchange rate of RMB may result in losses in the event that you convert RMB into other currencies. Onshore RMB and offshore RMB are traded in different and separate markets operating under different regulations and independent liquidity pool with different exchange rates. Their exchange rate movements may deviate significantly from each other.

Online Investment Trading Services

Due to unpredictable network traffic congestion and other reasons, the Internet and other electronic media may not be reliable media of communication and transactions conducted over the Internet and via other electronic media are subject to: (i) possible failure or delay in the transmission and receipt of instructions for any or all transactions in investment products or other information, and (ii) possible failure or delay of execution or execution at prices different from those prevailing at the time when your instructions were given. There are risks associated with the online investment trading system, including the failure of hardware and/or software, and the result of any such system failure may be that your orders are either not executed according to your instructions or are not executed at all. There are risks of interruption, distortion, omission, blackout or interception during the transmission of instructions for any or all transactions in investment products, as well as of any misunderstanding or errors in communication.
